

HB 60 -- Removal of Weeds and Trash

Sponsor: Engler

This bill authorizes the marshal or other designated official of the City of Farmington to order the abatement of weeds or trash without a hearing or notice to the property owner if there has been more than one previous violation on the same property within a growing season for weeds or within a calendar year for trash. The city may have them removed and the cost of removal billed on a special tax bill to be collected by the city collector with other taxes assessed against the property. These provisions do not apply to lands owned by a public utility and specified land controlled by a railroad.
